

JOIN THE PACK

Wolf just left to join the pack
He ain't never coming back
I know he's right, he can't be wrong
Alone you're weak, together strong

Join the pack, get that killer instinct back
Join the pack, follow the leader down the track

Watch the pack join in the hunt
Present the target a united front
Side by side, you and your mates
Into one the pack mutates

Join the pack, the best defence lies in attack
Join the pack, show us you ain't lost the knack

No matter where your victim hides
He's gonna get jumped on from all sides
There ain't no quarter, no place to run
Bare your fangs and have your fun

Join the pack, and have yourself a little snack
Join the pack, follow the leader down the track
